

Connect. Collaborate. Contribute.

To focus our discussions, we will now divide the room into three groups based on the main workshops of the conference. Pick the area you'd like to explore further.

1. **Student Experience**

Looking at the podium, please gather on the left side of the room.

2. **Innovation**

Gather in the center of the room.

3. **Assessment**

Looking at the podium, please gather on the right side of the room

Then, break into groups small enough to sit at tables.

Connect. Collaborate. Contribute.

Heather Barclay Hamir, Ph. D., IFSA

Margaret McCullers, M. Ed., IFSA

Cultural Engagement Abroad

a video by student Anna Meehan

Discussion Questions

- What lingering question do you have about this topic?
- What did you find yourself writing down a note about during the workshop, and why? (What did you take note of?)
- Was there an "a-ha" moment for you? What was it?

Your Future Self Thanks You

- What specific action will you take as a result of what you learned? (*Knowledge is only power if you apply it.*)
- If you were developing a Part 2 or “2.0” for the workshop you just participated in, what kind of content would you include?

Report Out

Each table please share out which intercultural agility topic you discussed (student experience, innovation or assessment) and your biggest takeaway or salient point of discussion.

Next year's conference will focus on our
organizational commitment to:

Individualized Learning

Join us July 24-26, 2019
